

ICT - Fraunhofer-Institut for Chemical Technology, Pfinztal Karlsruhe

Client: Fraunhofer-Gesellschaft
Project: New Building
 Institute for Chemical Technology
Area (Floor Space): 3,500 m²
Project Period: 2003 to 2006

Scope of Services:

- Heating, ventilation and sanitary technology
- Building automation
- Laboratory technology
- Clean-room technology
- Work phases 1 to 8 according to HOAI (fee structure for architects and engineers)

Laboratories for Materials Research

- Laboratory bench system with flue and concealed extraction system
- Extraction arms to collect waste heat and smells
- Media pendant with connections for special gases, cooling water, electronics and data
